

## AUTOMATIC COVERS

# ULTIMA COVER

**A safe and clean pool all year round**

## AUTOMATIC COVERS

# ULTIMA COVER

### + INVISIBLE

- Cover integrated in a pit. Once rolled up, it is perfectly hidden in a dry pit.

### + TRANQUILLITY

- Can be used all year round, it meets all needs: safety, protection against external pollution.
- It is ideal for pools close to a green environment, as its integration prevents leaf deposits.
- Its UV treated PVC fabric is very easy to maintain and will keep its original appearance.

### + PERFORMANCE

- Ultima Cover combines the performance of a hydraulic motorisation with extremely durable materials and quality manufacture: anti-corrosion anodised aluminium rails, UV treated fabric, high frequency welding.
- The performance of the hydraulic motors allows you to open and close your pool very quickly (less than one minute for a 9.00 m pool).

Automatic covers available for a cover up to 6.00 x 14.00 m.

1 HYDRAULIC MOTORISATION

2 ALUMINIUM LEADING EDGE

3 ALUMINIUM GROOVED TUBE

4 TELESCOPIC BRACKETS FOR THE PIT

5 ALUMINIUM CORNER STOP (For rails under coping only)

6 REINFORCED PVC FABRIC 580 G/M<sup>2</sup>

- High frequency welded.
- PVC coated polyester evacuation grid located on the width to allow residual rainwater to drain into the pool at the end of the roll-up.

7 AUTOMATIC DRAIN PUMP

8 ANODISED ALUMINIUM RAILS

9 POLYESTER CABLES

## Your possible configurations

### Rails under coping

A - Flat rails

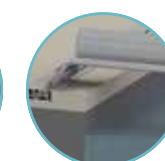

B - Rails for liner hung

### Rails on coping

C - Deck rails

Medium grey

### + LivePool

Opening and closing of the automatic cover with a smartphone thanks to the LivePool application.

## USEFUL TO KNOW

- Automatic cover also available with an above-ground pit.
- Maximum size of the cover: 6.00 x 14.00 m.

Above-ground version

#### Read carefully and keep for future reference.

The Ultima Cover automatic cover is a safety cover for pool, designed to keep children under the age of 5 out of the pool. This product is compliant with the standard NF P90-308. It is no substitute for common sense or personal responsibility. It is no substitute for the vigilance of parents and/or responsible adults, which remains the essential factor for the safety of young children. A child can drown in less than 3 minutes; no type of preventive measures can replace the monitoring and vigilance of a responsible adult.

**Warranty:** 2 years on the fabric and on the motorisation in accordance with our general terms of sale.

**Order form:** for the cover to be properly adjusted to the swimming pool, it is essential to provide the corresponding order form and to respect the technical recommendations made available by DEL.

**Time needed to operate a pool measuring 5.00 x 10.00 m:** 1 minute for the automatic opening or closing. The opening and closing of the Ultima cover can be done by one person. It is not advisable to operate the cover when there is standing water on the surface of the cover (more than 100 litres) and when the water in the pool or on the surface or in the vicinity of the pool is frozen.

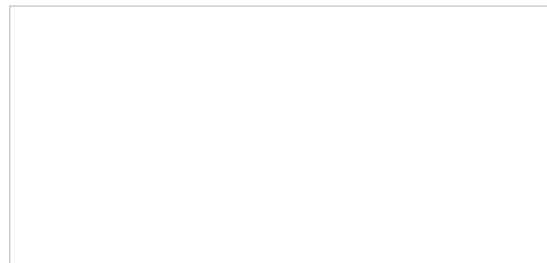

**Use:** all year round. For proper operation, maintain a constant water level corresponding to normal pool filtration.

**Serviceability limits:** unless otherwise specified by the manufacturer, immersion alarms are not compatible with DEL covers. Overflow pools subject to technical validation by us.

**Wintering:** it is mandatory to winterize the pool depending on its geographical location. Please refer to the technical notice.
