DEL

## ABOVE-GROUND AUTOMATIC SLATED COVER

# TIXIT

### + AESTHETIC

- Elegant, discreet and 100 % recyclable end-stands imagined by our own designers.
- LED lighting to emphasize the end-stand pure design for the electric version.

### + CUSTOMISABLE

- Available in electric or solar version.
- For each version, a choice of 3 end-stand colours for a perfect integration in your garden.

### + FINISHES

- All materials and components have been carefully selected for a perfect stability and an optimal rendering.
- The textured power-coated aluminium finishing gives the end-stands a decidedly contemporary appearance.

#### Electric version

#### Solar version

**POOL SOUND**

The cover end-stand turns into a Bluetooth® speaker to play music in the garden using a quick and intuitive connection. Available exclusively for electric version.

Cover available for pool from 2.00 x 3.00 m and up to 5.00 x 13.50 m.

#### 1 END-STANDS

- Coloured aluminium end-stands.
- Compact end-stands (98 x 175 mm).

#### 2 DECORATIVE LED STRIP (12 V)

- On/Off switch on the end-stand.

#### 3 MOTORISATION

##### Tubular electric motor:

- Adjustable mechanical ends-of-runs, free-wheeling motor (used to unroll the slats in case of a motor breakdown and to keep the pool safe despite the absence of electricity).
- The motor service life is longer thanks to the bearings which support the tube and therefore the weight of the cover.

Controlled by Wi-Key, key switch or LivePool.

#### 4 LOCKING KITS

#### 5 SLATS

- Opaque PVC 84 slats, solar polycarbonate slats or opaque PVC 69 slats.

#### 6 ALUMINIUM TUBE

## Your slats choice

All our slats have a quality finish and are compliant with the NF P90-308 standard.

### + LivePool

Opening and closing of the automatic cover with a smartphone thanks to the free LivePool App (except solar version).

### USEFUL TO KNOW

Choose solar polycarbonate slats to heat your pool water.

#### Read carefully and keep for future reference

The Tixit automatic cover is a swimming pool safety cover designed to prevent children under 5 years of age from accessing the pool. This product complies with the standard NF P90-308. It is no substitute for common sense or individual responsibility. It is not intended either to be a substitute for parental and/or adult supervision, which is the essential factor for the protection of young children. A child can get drowned within less than 3 minutes; no type of protection will ever replace the vigilance and supervision of responsible adults.

**Warranty:** 2 years for the reel system and 3 years for the motor. 3 years for opaque PVC slats and 5 years for solar polycarbonate slats, in accordance with our general sales terms.

**Order form:** to have a cover correctly adjusted to the pool, it is essential to provide a drawing of the pool with measurements taken every 1 meter. In accordance with the standard NF P90-308, the gap between the inside of the pool and the edge of the cover must be less than 70 mm.

**Operating time:** for a pool of 5.00 x 10.00 m : 3 minutes for the automatic opening or closing and 30 seconds for the locking or unlocking of the safety kits. Tixit can be opened and closed by one person.

**Use:** for all seasons. For a proper functioning, maintain a constant water level corresponding to a normal pool filtration. It is essential to have a water level regulator. The water level have to comply with the technical notice.

**Use limits:** DEL automatic slatted covers on infinity pools can only be compliant if the pool is equipped with a device such as an Infinity control box that automatically lowers the water level by at least 2 cm when the cover is closed on the pool. To this day, DEL automatic slatted covers with a removable shape on a side staircase are not compliant with standard NF P90-308. Unless specified by the manufacturer, immersion alarms are not compatible with DEL automatic slatted covers.

**Wintering:** the swimming pool must be wintered on the basis of its geographical location. Without lowering the water level, close the cover to its safety position and where applicable install a wintering shift to protect the cover. If the water level falls, to keep the white goods out of the water, roll in the cover and secure the pool using a safety winter cover.

**Packing list:** for a swimming pool measuring 5,00 x 10,00 m. Slats: 5 packages of 5.10 x 0.25 x 0.20 m - 250 kg / Tube: 1 package of 5.46 x 0.20 x 0.20 m - 30 kg / End-stands: 1 pallet of 0.80 x 0.60 x 0.55 m - 40 kg / Total weight: 320 kg.

**Manufacturer:** DEL SAS - ZA La Croix Rouge - 35530 Brécé - FRANCE / [www.del-piscine.fr/en](http://www.del-piscine.fr/en)

#### DON'T FORGET

Protect your slats from UVs and dirt

with the Ivernea winter shift or the Ivernea Plus 4-season protective shift.
